# ANALIZADORES DE BOMBAS DE INFUSIÓN

## IPA 1000

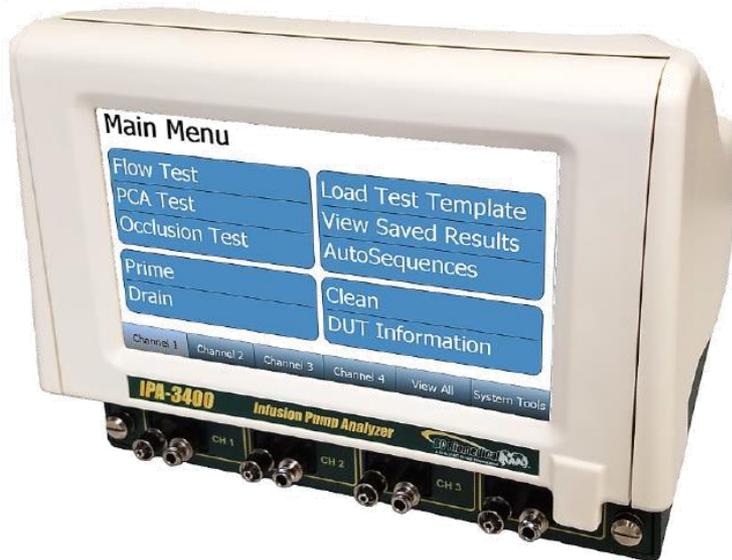

### Características básicas

- Exactitud del flujo de  $\pm 1\%$
- Cámaras intercambiables
- Cámaras de 35 ml ó 3.5 ml
- Tubos reemplazables
- Sensores de nivel sellados
- Detección automática de cámara

# ANALIZADORES DE BOMBAS DE INFUSIÓN

## IPA3400

### Características básicas

- Exactitud del flujo de  $\pm 1\%$
- Módulos de flujo intercambiables
- Calibración almacenada en módulo de flujo
- Pantalla táctil a color
- Detección automática de módulo
- Medición de flujo basa en presión, no burbujas o bordes.
- Pruebas programables
- Reportes en PDF
- 32 GB de almacenamiento
- 4 Puertos USB (Teclado, mouse, Flashdrive, escáner de código de barras)

# COMPARATIVO ENTRE ANALIZADORES BOMBAS DE INFUSIÓN

| Item  | BC Biomedical IPA-3400™ | Fluke IDA-5™  | Fluke IDA-1S™ | Rigel Multi-Flo™ | Datrend Infutest™ | Pronk Flowtrax™ |
|---|-------------------------|---------------|---------------|------------------|-------------------|-----------------|
| <b>Measurement system that is not dependant on bubbles</b>                                  | Included                | Not Available | Not Available | Included         | Not Available     | Not Available   |
| <b>Ability to read very low volumes</b>   | Included                | Not Available | Not Available | Not Available    | Not Available     | Not Available   |
| <b>Ability to control backpressure, even down to vacuum</b>                                 | Included                | Not Available | Not Available | Included         | Not Available     | Not Available   |
| <b>Modular User-swappable Flow Channels</b>   | Included                | Not Available | Not Available | Not Available    | Not Available     | Not Available   |
| <b>Ability to avoid calibration turnaround time by swapping self-contained flow modules</b> | Included                | Not Available | Not Available | Not Available    | Not Available     | Not Available   |
| <b>Dual syringe technology</b>  | Included                | Not Available | Not Available | Not Available    | Not Available     | Not Available   |
| <b>Saline-proof Industrial Grade Stainless Pressure sensor</b>                              | Included                | Not Available | Not Available | Not Available    | Not Available     | Not Available   |
| <b>Pressure Measurement accuracy of 0.1% FS</b>   | Included                | Not Available | Not Available | Not Available    | Not Available     | Not Available   |
| <b>Measurement Channels can be added in future by user</b>                                  | Included                | Not Available | Not Available | Not Available    | Not Available     | Not Available   |
| <b>Built in Auto-sequences</b>  | Included                | Included      | Not Available | Included         | Not Available     | Not Available   |
| <b>Supports USB keyboard, mouse, printer, barcode scanner and flash drive</b>               | Included                | Not Available | Not Available | Not Available    | Not Available     | Not Available   |
| <b>Color Touch-screen operator interface</b>  | Included                | Not Available | Included      | Not Available    | Not Available     | Not Available   |
| <b>Adjustable Display angle</b>   | Included                | Not Available | Not Available | Not Available    | Not Available     | Not Available   |
| <b>Individual AUX I/O per each channel for accessory interfaces</b>                         | Included                | Not Available | Not Available | Not Available    | Not Available     | Not Available   |
